PROFESSIONAL SUMMARY

Results-driven Software Engineer with a strong background in developing intelligent features for web applications. Proficient in modern technologies including TypeScript, React, and Node.js, with a focus on delivering high-quality software solutions. Adept at collaborating in agile environments and mentoring junior engineers to achieve project goals efficiently.

CORE SKILLS

TypeScript, React, Node.js, REST API, SQL, MongoDB, PostgreSQL, Docker, Testing, Agile, Problem Solving, Cloud, Microservices, CI/CD, Debugging, Unity, ARCore, Android Studio, Stanford CoreNLP, Git, Bootstrap, jQuery, Emscripten, Blaze, J2C

PROFESSIONAL EXPERIENCE

Software Engineer, Level IV | Google LLC | New York | Dec 2022 - Present

- Developing and enhancing features for Google Keep, contributing to improved user experience and functionality.

Software Engineer, Level IV | Google India Pvt Ltd | Bangalore | Aug 2020 - Nov 2022

- Engineered intelligent features for Google Workspace Editors, leveraging expertise in client-side software and natural language processing.
- Utilized advanced frontend technologies, including Web Assembly and Emscripten, to implement user-facing features such as multilingual spellcheck and writing style suggestions.
- Designed technical solutions for complex end-to-end problems, fostering cross-team collaboration and ensuring software reliability.
- Mentored junior engineers on programming and software design, facilitating timely product delivery.

Software Engineering Intern | Google India Pvt Ltd | Bangalore | May 2019 - July 2019

- Contributed to the development of the Google Docs text auto-correction feature by enhancing the client-side software infrastructure.

Research Intern | Big Data Experience Labs, Adobe Research | Bangalore | May 2018 - July 2018

- Developed a mobile application for Text to Scene Conversion in Augmented Reality, applying novel research techniques.

PROJECTS

Graph Neural Networks for Extreme Summarization

Formulated graph-based deep neural models for the Extreme Summarization task.

- Achieved superior performance compared to traditional recurrent and hierarchical models.

Risk-Sensitivity in Multi-Armed Bandits

Surveyed and implemented risk-sensitivity methods for stochastic bandit problems.

- Enhanced the Explore-Then-Commit algorithm for VaR and cVaR measures.

EDUCATION

Dual Degree (B.Tech + M.Tech) in Computer Science and Engineering | Indian Institute of Technology Madras | Chennai, India | 2015-2020

XII - Karnataka Board | KLE Society's Independent PU College | Bangalore | 2015

X - ICSE | B P Indian Public School | Bangalore | 2013
