PROFESSIONAL SUMMARY

Detail-oriented Software Engineer with a strong background in developing intelligent features for web applications. Proficient in modern technologies including TypeScript, React, and Node.js. Proven ability to drive cross-team collaboration and mentor junior engineers, resulting in timely product delivery. Passionate about leveraging cloud technologies and microservices architecture to enhance software performance and user experience.

CORE SKILLS

TypeScript, React, Node.js, REST API, SQL, MongoDB, PostgreSQL, Docker, Testing, Agile, Problem Solving, Cloud, Microservices, CI/CD, Debugging, Unity, ARCore, Android Studio, Stanford CoreNLP, Git, Bootstrap, jQuery, Emscripten, Blaze, j2Cl

PROFESSIONAL EXPERIENCE

Software Engineer, Level IV | Google LLC | New York | Dec 2022 - Present

- Developing and enhancing features for Google Keep, improving user experience and functionality.
- Collaborating with cross-functional teams to ensure software reliability and performance.

Software Engineer, Level IV | Google India Pvt Ltd | Bangalore | Aug 2020 - Nov 2022

- Engineered intelligent features for Google Workspace Editors, utilizing advanced client-side technologies.
- Implemented user-facing features such as spellcheck in encrypted documents for five languages, enhancing accessibility.
- Led technical design initiatives for end-to-end solutions, fostering cross-team collaboration and documentation.

Software Engineering Intern | Google India Pvt Ltd | Bangalore | May 2019 - July 2019

- Contributed to the development of a user interface for Google Docs' text auto-correction feature, enhancing user interaction.

Research Intern | Big Data Experience Labs, Adobe Research | Bangalore | May 2018 - July 2018

- Developed a mobile application for Text to Scene Conversion in Augmented Reality, advancing research techniques.

PROJECTS

Graph Neural Networks for Extreme Summarization

Formulated graph-based deep neural models for the Extreme Summarization task.

- Achieved superior performance compared to traditional models.

EDUCATION

Dual Degree (B.Tech + M.Tech) in Computer Science and Engineering | Indian Institute of Technology Madras | Chennai, India | 2015-2020

KEY ACHIEVEMENTS

- First runner-up in the AWS Deep Learning Hackathon during Shaastra 2018, IIT Madras.
- State Rank 17 in Karnataka Common Entrance Test for Engineering, 2015.
